

MARK LANE

Traffic Lane Cleaner and Prespray *Limpiador Para Areas De Trafico*

MARK-LANE is an effective chemical blend formulated to clean carpet areas that are heavily encrusted with grease, oil and traffic soil. It is an excellent general spotter that will break down most food and light oil stains commonly found in carpeting.

TRAFFIC LANE PRESPRAY

Dilute **MARK-LANE** 8 ounces per gallon (16-1) and apply mixture as a prespray to heavily soiled areas and traffic lanes. The entire room can then be shampooed without overwetting. Presprayed carpets shampoo uniformly for a cleaner brighter appearance.

CARPET SPOTTING

MARK-LANE can be used as a spotter for small areas. Use 3 or 4 drops per square inch of stained carpet, agitate with scraper, and blot with a white absorbent towel until stain is removed and spot is dry.

RECOMMENDED USES:

- Institutional Health Care and Hospitals
- Nursing and Extended Care Facilities
- Hotel/Motel/Restaurant

BENEFITS:

- Concentrated Strength
- Eliminates Rejects
- Active on Organic and Inorganic Soils
- Prevents Set-In Stains
- Penetrates Water and Oil Base Spots

SPECIAL INSTRUCTIONS:

BEFORE USING ANY SPOTTER OR SHAMPOO

test a small inconspicuous area for dye stability and/or fabric deterioration. Read carefully all directions and warnings on each container. For more information consult your local carpet care supplier.

DIRECTIONS FOR USE:

MARK-LANE should be diluted up to 16-1 or 8 oz. per gallon of water when used as a prespray. For large areas, prior to cleaning, use pump-up type sprayer and apply thoroughly to traffic areas or particularly stained areas.

MARK-LANE should be used as it comes from the container when being used as a spotter for small areas. Always flush with a shampoo solution after stain is removed.

MARK-LANE must always be flushed out of carpet after application by either the shampoo or hot water extraction method of cleaning.
