

MARK-PRO

Liquid Protein Spotter *Desmanchador Para Uso En General*

MARK-PRO may be used on wide range of food stains containing starch, fats, oils, and albumen. Its concentrated blend of synthetic chemicals is especially effective on protein based materials: blood, milk, egg, beer, ice cream, etc.

MARK-PRO is a safe and effective spotter to use on protein type stains.

MARK-PRO is a wide range alkaline product for the removal of blood, milk, egg, beer, ice cream, food and other related stains.

MARK-PRO contains ingredients that will remove the above stains and has a rich foam that will suspend the staining matter until it is blotted or vacuumed up.

NOTE: Before using any spotter, always test on a small sample of the carpet to be spotted for dye stability.

RECOMMENDED USES:

- **MARK-PRO** is a wide range alkaline product for the removal of blood, milk, egg, beer, ice cream, food and other related stains.

BENEFITS:

- Penetrates Tightly Woven Fabrics
- Removes Protein Based Spots
- Removes Food Soils
- May Be Diluted For Economical Use

SPECIAL INSTRUCTIONS:

BEFORE USING ANY SPOTTER OR SHAMPOO test a small inconspicuous area for dye stability and/or fabric deterioration. Read carefully all directions and warnings on each container. For more information consult your local carpet care supplier.

DIRECTIONS FOR USE:

MARK-PRO, when used for stain removal, should be used undiluted for best results.

Apply small amount of **MARK-PRO** to stained area. Allow to penetrate thoroughly and work gently with the scraper so as not to disturb the twist of the carpet fibers. Blot with white cotton toweling. Repeat above procedure until the toweling is clean after blotting. For large stains you may prefer to use a wet or dry vacuum instead of toweling. When stain is no longer showing on the toweling, apply small amount of water and **MARK L¹** or **MARK L³** Shampoo. Work with scraper, then flush and blot or vacuum up any remaining moisture.

If a trace of stain is still present, either **MARK-DRY**, **MARK-TOUGH**, or **MARK-TAN** should remove the last traces.

For heavily soiled carpets, you may add 6 oz. of **MARK-PRO** per gallon of cleaning solution into the solution tank of your machine.
