

MARK-TOUGH

Extra Heavy Duty Paint and Grease Remover

Removedor De Pinura y Grasa De Uso Extra Ponderoso

MARK-TOUGH will remove the "toughest" carpet stains: latex, enamel paints, chewing gum, shellac, varnish, rubber base adhesives, perfume, crayon, oil, tar, asphalt, ink, cosmetics, shoe polish, and food spills.

Use **MARK-TOUGH** on old stains that have been set by age, heat, and less effective spotters. **MARK-TOUGH** will penetrate and lubricate the stain so that it can be lifted out by blotting or normal shampooing.

DIRECTIONS FOR USE BEFORE USING ANY SPOTTER OR SHAMPOO test a small inconspicuous area for dye stability and/or fabric deterioration. Read carefully all directions and warnings on each container. For more information consult your local carpet care supplier.

CARPET SPOTTING: MARK-TOUGH can be used as a wet side spotter by mixing half and half with water. Dab or spray the solution directly on the stain and blot with an absorbent white towel. For tough heavily encrusted areas allow the solution to penetrate, then agitate with a carpet scraper and blot with absorbent toweling.

MARK-TOUGH can also be used as a dry side spotter by mixing half/half with **MARK-DRY**.

SHAMPOO ADDITIVE MARK-TOUGH may be used as a shampoo builder. Mix extraction solution/shampoo according to label directions, then add 4 ounces **MARK-TOUGH** per gallon of solution. This built shampoo will deliver maximum cleaning results on the dirtiest carpets.

RECOMMENDED USES:

- Restaurants and Cafeterias
- Commercial Buildings
- Schools

BENEFITS:

- Simplicity—ONE PRODUCT DOES IT ALL
- EFFECTIVE—Power cleaning for all grease, soils, carbon and dyes
- SAFE for use on all common surfaces

DIRECTIONS FOR USE:

MARK-TOUGH should be used straight on difficult stains. Allow time to penetrate. **MARK-PRO** may be added to the stain after it begins to loosen. Then agitate and flush out with shampoo.

MARK-TOUGH may be mixed half and half with water for wet side spotting or mixed half and half with **MARK-DRY** for dry side spotting.

MARK-TOUGH is an excellent product to add to **MARK-LANE** (4 oz. per gallon of mixed solution) for heavy grease or badly soiled areas.

NOTE: Before using **MARK-TOUGH** always test on a small inconspicuous area for color fastness.
