*Environmentally Preferable Cleaning Solutions*

*"DfE Recognized as a Safe Product"*

## **SCRUB N' STRIDE**

### **Enzyme Enhanced Floor Cleaner**

*Limpiador Con Enzimas Para Los Pisos*

ENVIR-O-SAFE SCRUB N' STRIDE eliminates unsafe and unsightly greasy floors in restaurants and foodservice settings. Soil build up and packed in grease creates a uniformly slip hazard for all who walk on it. Traditional floor cleaning procedures simply redistribute the grease back onto the tile and grout. Without the use of harsh chemicals, **SCRUB N' STRIDE's** advanced chemistry immediately goes to work to break down grease. High concentrations of enzymes continue to degrade packed in grease in the grout and tile pores that also help eliminate odors. This NO RINSE REQUIRED formula helps lower labor costs, reduce water use and also leaves a pleasant fragrance. Safe to use and safe for the environment.

#### **RECOMMENDED USES:**

- Restaurants
- Foodservice Operations
- Food Processing
- Unsealed / Unglazed Surfaces: Quarry Tile, Concrete, Ceramic

#### **FEATURES AND BENEFITS:**

- DfE Approved
- Non Toxic: No Sara 313 Chemicals
- Phosphate Free
- Non Combustible
- No Glycol Ethers
- No Nonyl Phenols
- No Petroleum Distillates
- No Carcinogens
- No Ozone Depleting Compounds
- Low V.O.C.'s
- Made from Renewable Resources (Vegetable Derived)
- Recyclable Packaging
- FD & C Dyes
- Non Corrosive: pH not lower than 4, not higher than 10
- Aquatic Toxicity (LC50<100mg/L)
- Exceeds Current Regulatory Requirements

#### **DIRECTIONS FOR USE:**

**Dispensed through the APM WALLMOUNT UNIT.** It is recommended that protective gloves and eyewear be worn then using this product.

1. Uncap **ENVIR-O-SAFE Scrub N' Stride Enzyme Enhanced Floor Cleaner** cartridge. (Reload™) and lock into place.
2. OPEN main water supply valve. (If closed)
3. OPEN valve on the WALLMOUNT unit and dispense cleaner into appropriate container. With no mixing or measuring, you will get the precise dilution needed for a maximum cleaning. (YIELD: a 2 liter cartridge of Scrub N' Stride Enzyme Enhanced Floor Cleaner yields 17 gallons of properly diluted cleaner.)
4. CLOSE valve on the WALLMOUNT unit.

#### **Easy Clean Up, Storage and Disposal**

1. Remove product cartridge. (Reload™)
2. Cap and Store partially used cartridge in wall rack.
3. Cap empty cartridge. Offer empty cartridge for recycling.

The WALLMOUNT unit is self-cleaning and always ready for the next job.

#### **Bulk Dilution Rates**

**Normal Cleaning:** Dilute 2-4 ounces (1:32/1:64) per gallon of water.

#### **Cleaning Procedures**

Sweep or vacuum the entire floor. Spray, wipe or mop solution on surface to be cleaned. Allow cleaner to penetrate a few minutes then scrub with a deck brush. Squeegee solution to a drain and mop up excess. Do NOT rinse, allow product to dry onto the floor. pH of concentrate: 8.5 ± 0.5

Daley International has partnered with the U.S. Environmental Protection Agency in their Design for the Environment (DfE) Formulator Initiative. With Daley International's advancements in formulations, the EPA has certified and granted the right to display the EPA DfE logo on the ENVIR-O-SAFE Environmentally Preferable Cleaning Solutions product line.
