

PHASE 1

No Rinse Stripper *Pulidor Que No Se Enjuaga*

This product is an effective, labor saving stripper that virtually eliminates the need for floor machines, pads and rinsing. It will solubilize aged and built-up finishes and waxes almost instantly. Can be used with or without a floor machine or may be added to your conventional stripper for use on problem floors.

RECOMMENDED USES:

- Resilient Floors
- Quarry Tile Floors
- Concrete, Bricks
- Terrazzo Floors
- Acrylic Seals, Finishes, Urethane Blends Burnished Floors, Waxes

BENEFITS:

- No Need for Extra Rinse Steps
- Saves Labor Costs
- Deep, Thorough Stripping Action
- Time Saving
- Removes Seals and Finish and Waxes
- Mop On/Mop Off or use With Machines

DIRECTIONS FOR USE:

The desired concentration will depend on the build-up and age of the polish film. As a starting point dilute with cold water as follows.

FOR AVERAGE BUILD-UPS - Dilute 8 to 1 with cold water.

FOR MODERATE BUILD-UPS - Dilute 6 to 1 with cold water.

FOR HEAVY AGED BUILD-UPS - Dilute 4 to 1 with cold water.

Mop a generous solution onto the floor to be stripped. Allow solution to stand about 5 minutes keeping the floor wet at all times. If mop stripping, agitate with the mop. If using an automatic scrubber or rotary floor machine, no mop agitation is required. Pick-up the solution with a wet vacuum, automatic scrubber or clean mop. Allow floor to dry thoroughly prior to applying any sealer or finish.

NOTE: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations. Always test floor before proceeding.
