

INCREDIBLE

Spray Buff Compound *Compuesto Pulidor Que Se Rocie*

This spray buffing compound contains special cleaning agents and solvents to remove scratches, scuffs and black heel marks. It also contains acrylic polymers to revive and enhance gloss.

This product will not yellow or make your floor harder to strip when you decide to completely refinish. In fact, you won't need to refinish as frequently because your floors will keep looking great. This product also can be used on old, damaged tile and linoleum to help restore the life of the floors.

This compound may be applied with simple spray devices and buffed out with standard or high speed machines. A one pad buff with one pass cleans and shines. For even better results a 2-pad system may be used for deep cleaning and remarkable gloss.

RECOMMENDED USES:

- Low or High Speed Buffing Programs
- One Pass or Two Pass System
- Swing Type, Electric, Battery or Propane Buffing Machines

BENEFITS:

- Cleans and Shines in One Pass
- Removes Heal Marks
- Repairs Scratches
- Prolongs Life of Finishes
- Slip Resistant

SPECIAL INSTRUCTIONS:

- Do not use on unsealed asphalt, wood or cork floors. Should be diluted 1:1 with water for best results.

PROTECT FROM FREEZING

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE:

1. Remove all loose dirt and debris with a dust mop.
2. For standard speed machine, use full strength. For speed, dilute 1:1 with water and place in a trigger sprayer device.
3. Mist lightly ahead of machine and buff with red or tan pad. For 2 pad system, buff first with red pad, followed by a white pad for heavily soiled and marked floors.
4. Remove any dust generated with a dry mop or vacuum.
