

# PEARL OF THE TROPICS

## Pearlized Lotion Soap for Hand, Hair and Body *Jabon Para Manos, Pelo Cuerpo En Loción Perlizado*

**PEARL OF THE TROPICS**, a synthetic surfactant system, is an extraordinarily effective grease and oil dissolver. Yet, it is gentle to hands and mild enough to be used as a waterless cleaner.

Its use runs the gamut from Country Club powder rooms to garage mechanics. **PEARL OF THE TROPICS** is a pretty, pink lotion with a cosmetic fragrance. Upon contact with water and gentle friction it bursts into billowy suds that lift dirt from around nails and knuckles. The suds rinse freely leaving skin smooth and fresh.

For dirty work, use **PEARL OF THE TROPICS** straight from the bottle. Rub the creamy lotion into knuckles and around fingernails, then towel off the excess. This thin barrier film will reduce grease absorption and make wash-ups easier. Also use just as you would any waterless hand cleaner.

**PEARL OF THE TROPICS** is a homogenous blend that will not clog dispensers.

### **RECOMMENDED USES:**

- Public Restrooms
- Offices
- Doctors Offices/Health Care Facilities
- Auto Repair Shops

### **BENEFITS:**

- ECONOMICAL – Straight or Diluted
- PLEASANT to use
- Excellent Grease and Dirt Cutter
- Gentle to Skin
- Stays FREE-FLOWING and FRESH in Dispenser

### **SPECIAL INSTRUCTIONS:**

- Use full strength
- Can be diluted 1:1 for extra economy.

### **DIRECTIONS FOR USE:**

Wet hands with water. Add a few drops of **PEARL OF THE TROPICS**. Work up a rich lather and gently massage into skin, especially around knuckles and fingernails. Use a soft bristle brush if hands are exceptionally dirty or soil is deeply embedded into skin creases and pores. Rinse thoroughly with clear water and towel dry.

Wet body and hair. Apply to body and hair, lather, rinse. Repeat if necessary.
