

Cleaner Degreaser

Limpiador Degrasador

Today's "buy" words are "personal and environmental safety." Federal regulations and society's awareness of the delicate balance in our eco-system are important factors when they choose cleaning products. And, of course, they still ask for effective, economical, pleasant-to-use cleaners.

Meet their demands with the NEW citrus based cleaner. Contains organic citrus extracts which dissolve grease and dirt naturally—no acids or petroleum solvents. A "natural" for degreasing floors, greasy equipment, appliances, grease traps, air filter systems, etc.

RECOMMENDED USES:

- Concrete Floors
- Grease Traps
- Air Vents
- Industrial/Institutional
- Auto Scrub
- Mop or Spray

BENEFITS:

- Fast Acting
- Cleans/Deodorizes
- Versatile
- Dissolves Dirts/Oils/Rubber Marks

DIRECTIONS FOR USE:

Use one part cleaner to five parts water on stoves, fryers, greasy concrete floors, ventilating and air filtering systems, carbonized grease on bake pans and all generally greasy surfaces or exceptionally stubborn soils in and around the kitchen. Increase or decrease concentrations as necessary.

Use one part to four parts with hot water for removing rubber burns and heavy wax build-up on floors of all kinds.

Use straight cleaner on air filters, diesel power units, lavatory basins, refrigerators, and rubber clothing.

CAUTION: Do not allow to dry on glass — may etch.
