

# NO. 420

## Machine Detergent Compound

### *Compuesto Para Maquinas De Lavar Trastes*

Maximum economy, optimum cleaning... **NO. 420 MACHINE** offers the best of both worlds for reservoir type feeding systems. This no-frills, highly-effective, granulated compound relies on those time-honored, well-proven cleansing agents which do the job right—at considerable savings to you. With its remarkable buffer capacity, **NO. 420 MACHINE** absorbs, neutralizes and emulsifies great quantities of grease and food residues in the wash water, so that your tableware gleams. Stubborn stains simply disappear.

Safe, too. Special protectants baby your fine china, silver and glassware. Plus, **NO. 420 MACHINE** is kind to your equipment, preventing scale formation on spray nozzles and other parts as well as on dishware. And its special slow-release chlorine system reduces dissipation in the reservoir to insure top destaining efficiency.

No problem with hard water, either. **NO. 420 MACHINE** is formulated to clean effectively where water tests at 5 to 10 grains of hardness. Last, but not least, special ingredients completely eliminate water spotting and help prevent machine foamover.

#### **RECOMMENDED USES:**

All types of Mechanical Dish Machines

- Flight
- Rack
- Conveyor

#### **BENEFITS:**

- Highly ECONOMICAL
- COMPLETELY SAFE for fine tableware
- SLOW RELEASE CHLORINE for consistent destaining action
- EFFECTIVE in hard water

#### **SPECIAL INSTRUCTIONS:**

Use with Reservoir Type Dispenser

- Hydraulic
- Electric

#### **DIRECTIONS FOR USE:**

1. Use only in APPROVED DISPENSERS.
2. DO NOT mix with anything other than water.
3. Unscrew and remove cap from the capsule
4. Turn capsule over and insert into the dispenser.

DO NOT REMOVE CAPSULE  
UNTIL IT IS EMPTY.

Consult your local sales representative for proper use concentrations.

**FOR INDUSTRIAL AND  
INSTITUTIONAL USE ONLY**
