

# SOLID SILVER

## Heavy Duty Concentrated Flatware Presoak *Pre-remojador Concentrado Para Utensilios*

Detarnishes silver and silverplate quickly without rubbing. Cleans even ornate embossed or etched patterns thoroughly. Safe! **SOLID SILVER** “destains”; it does NOT remove the surface layer of metal.

**SOLID SILVER** is also a super effective pre-soak in the dish pantry where flatware rejects are a major problem. Exceptional wetting ability and detergency quickly penetrates, emulsifies and lifts dried egg yolk, cheese, and other difficult-to-remove proteins from flatware. Use it to pre-soak gravy boats, French onion soup crocks, reusable seafood shells, and other hard-to-clean items.

The unique package and delivery system controls costs. Solids are easy to handle. They can't spill, and they are not conducive to home use so they reduce theft. The container is part of the dispensing system. Simply drop the jar into the feeder cone, activate and stop dish pantry rejects economically, with no measuring, no mess, and no waste.

### **RECOMMENDED USES:**

- Detarnish silver flatware and hollowware
- Soak stainless flatware and serving pieces before dish machine processing

### **BENEFITS:**

- SAFE—non-abrasive
- CONTROLLED DISPENSING—prevents overuse
- EFFECTIVE—gives tableware a “just polished” look
- ECONOMICAL—no waste, reduces theft

### **SPECIAL INSTRUCTIONS:**

- Silver and Stainless items must be completely immersed in solution

### **DIRECTIONS FOR USE:**

1. Use only in APPROVED DISPENSERS.
2. DO NOT mix with anything other than water.
3. Unscrew and remove cap from the capsule
4. Turn capsule over and insert into the dispenser.

DO NOT REMOVE CAPSULE UNTIL IT IS EMPTY.

Consult your local sales representative for proper use concentrations.

**FOR INDUSTRIAL AND  
INSTITUTIONAL USE ONLY**
