

# SUPER PEXIDE

## Premium Chlorinated Machine Dishwash Compound *Compuesto Con Cloro De Alta Calidad Para Maquinas De Lavar Trastes*

This product is a quality chlorinated detergent for use in commercial dishwashing machines. Its unique formula combines all the essentials for excellent results with mechanical dishwashing.

It is perfectly safe and ideal for use with fine china, crystal and silverware. The chlorine-releasing, free flowing white powder completely removes stains from dishes. Inherent chemicals prevent attack on fine china, thereby protecting their glaze and prolonging their life and beauty.

### **RECOMMENDED USES:**

Flight, Conveyor, Rack Machines

- In medium to hard water locales
- For glass, pottery, china, silver and stainless

### **BENEFITS:**

- ELIMINATES water spotting
- REMOVES stubborn stains from ceramic and plasticware
- DISSOLVES scale build-up in washer, keeps it clean and cuts maintenance costs
- PROTECTS new dishes, silver and glassware and keeps them sparkling

### **SPECIAL INSTRUCTIONS:**

Use with reservoir type dispenser

- Hydraulic
- Electric

### **DIRECTIONS FOR USE:**

#### **FOR ELECTRIC DISPENSERS:**

1. Fill dispenser with product.
2. Turn on machine dispenser.
3. The dispenser will maintain the proper concentration.

#### **FOR HYDRAULIC DISPENSERS:**

1. Fill dispenser with product on the basis of 1/4 ounce per gallon of water for the initial charge.
2. Then fill the dispenser at least 1/2 full, adding detergent at proper intervals to the dispenser.

#### **FOR MANUAL FEEDING:**

1. Calculate gallonage of machine based on manufactures instructions and charge at the rate of 1/4 ounce per gallon of water.
